

LearnX Educator's Certification Program for AWES:

The **LearnX Educator's Certification Program** aims to offer a comprehensive and flexible learning solution to help educators enhance their skills, particularly in the areas of **mental health, disability screening, and student-centred learning**. The program is designed to address the growing need for educators to manage diverse challenges in the classroom, including mental health issues and special educational needs.

Key Highlights:

1. Blended Learning Model:

- The program combines micro-learning, mentor-led group interactions, and international workshops.
- Designed for educators to spend 10-15 minutes every alternate day on learning modules.
- Certifications are offered at various levels: **Yellow Belt**, **Green Belt**, and **Black Belt**, which correspond to different levels of training and expertise.

2. Mental Health Focus:

- Emphasizes the importance of mental health in education, especially as it affects students' academic performance and overall well-being.
- Educators are trained to recognize and respond to early signs of mental disorders, disabilities, and behavioral challenges, particularly in adolescents.

3. Inclusive and Disability-Oriented Training:

- Special focus on creating inclusive classrooms for students with special needs, including those with anxiety, behavioral disorders, and learning difficulties.
- Modules prepare educators to handle student-centered online learning environments and inclusive practices.

4. Certification Structure:

- **Yellow Belt:** Focuses on creating a conducive learning environment, disability screening, and student-centered learning.
- **Green Belt:** Expands on building a culture of thinking, report card formulation, and effective parent engagement, including supporting students with special needs.
- **Black Belt:** A global mentorship program culminating in a two-day workshop in Singapore with international leaders and mentors.

5. Global Engagement:

- The program offers educators the opportunity to participate in international workshops with global educators, policymakers, and authors, promoting international collaboration and exchange of ideas.

6. Key Facts About Adolescent Mental Health:

- One in seven adolescents experiences a mental disorder, with depression, anxiety, and behavioral disorders being the most prevalent.
- Suicide is the fourth leading cause of death among 15-29-year-olds, making mental health awareness crucial for educators.

7. Technology-Driven Learning:

- LearnX modules use AI-powered platforms to deliver personalized, scenario-based learning.
- Regular webinars and access to extensive content and reference materials are provided as part of the program.

8. Cost and Access:

- The **Yellow Belt certification** is offered at zero cost to educators, while the **Green Belt** certification is available at a nominal fee of 2400/- Rs. To be borne by participants.
- **LearnX** collaborates with global institutions and policy-makers to continuously enhance the curriculum and ensure its relevance to current educational challenges.
